Beyond 2c
by Crozier Campers

The ***Beyond2c*** is our most compact Sprinter conversion yet, built on the 5.9m medium wheelbase chassis. Designed to be agile without cutting back on essentials, it offers all the features you need for comfortable travel in a refined, versatile layout.

Step inside and you are welcomed by a walkthrough bulkhead and swivel passenger seat that open up the living space. On the offside sits a fully equipped shower cubicle with a removable toilet, followed by a dual-sided kitchen with five drawers, barn door cupboards and a 90-litre fridge. Above, four large overhead lockers span the length of the van, giving you impressive storage capacity in a compact footprint.

The twin seating area adds flexibility, with a removable Lagun table that can be positioned centrally for dining or mounted up front beside the passenger seat to create a practical desk. The seats can also convert into a comfortable couch, making the space work for every part of your day.

At the rear, the slide-out bed system provides a full-size double when it is time to rest, and retracts neatly to keep floor space open during the day. Beneath, a spacious garage gives you room for gear and equipment, with secure storage for everything from luggage to outdoor kit. The ***Beyond2c*** combines a full bathroom, a well-equipped kitchen, generous storage and a true double bed within a carefully designed layout.

Compact in size yet complete in features.

Servicing

We offer annual servicing plans that cover the interior, electrical and plumbing systems. Our servicing plan can also cover any mechanical servicing and an MOT whilst it's with us. This will keep you on the road for another year and give you peace of mind on your adventures. With our annual servicing, you will have the opportunity to extend your warranty for another 12 months annually.

Upgrades

All our builds are designed and built in a modular fashion which means we can easily refresh or upgrade parts of the build. This is perfect for lifestyle changes; your van can change with you. This includes the furniture, electrical and plumbing systems and also the exterior.

Storage

We offer secure on-site vehicle storage for all our customers, which is particularly convenient for our international clients. We also provide storage plans that include monthly maintenance and comprehensive detailing services.

Prices correct as of May 2026. Prices may vary.
